Declassified in Part - Sanitized Copy Approved for Release 2012/08/30 : CIA-RDP90G00993R000100010005-0

DATE: April 20, 1986

STAT NOTE TO: [redacted]

SUBJECT: Maintenance Support for PCs

STAT [redacted] appended is an equipment list and instructions for customers to order IBM 3270-ATs. This has been coordinated with your various Groups which will be involved in installation and maintenance. Also it has been coordinated with OIT Development through STAT [redacted] who asked that I coordinate it through you and get it out.

Some comments:

Prices and item numbers have been updated to the extent possible based upon IBM's April 2nd announcement.

The first two sentences read strangely, but they are there at the request of OL for legal and contractual purposes. We need to leave them where they are and as they are.

The intent is to quietly send the ADP Control Offices this document on AIM and update it periodically as prices and other pertinent items change. To avoid possible protests and other problems, OL would like us to "low key" the entire thing. They would prefer we have small meetings and "one on one" versus huge sessions in the auditorium. Also they prefer an informal paper to the ADP Control Officers versus an official OIT Tech Note with logo and all. This cannot be and should not be an "Agency standard" or even "OIT standard" workstation in the absence of a competitive contract. People can buy what they want, and OIT is electing to begin support with this device.

If this is OK, I will work with the Consulters to get it out. Please let me know.

STAT **** appended by [redacted] -Thanks on April 20, 1986 ********
